\$10. Picture bad recipe boring. And the food taste awesome. Waiting for another book from this author. Asked for a refund. This booklet has help me how to prepare meals. Easy to follow. Only thing is that the covers have a tendency to curl. Pictures don't match all recipes. It's very useful and handy. Great for any beginner. I love it and so does my family. It made my cooking a game changer. It's creative. Great tastes and much healthier than regular frying
