

Daft Wee Stories By Limmy **Daft wee stories review** Daft Wee Stories There's some hugely funny stuff in here and most of it has a certain charm when you imagine Limmy reading them out -- maybe just buy the audiobook and be done with it -- but there's quite a bit of matchy matchy in the way these modern day fairy tales play out and it's usually with a snappy unrelated punchline in the final paragraph after an elaborate build up. **Daft wee storiesn in english** 1780893752 I cheated and listened to the audio book instead because i do think this book is best appreciated when it's heard in Limmy's voice and he's such a unique story teller that you just have to hear it coming from him i think i probably would have missed out on some of the jokes if i had just read it. **Book daft wee stories online** It is hilarious and weird and it's a wild journey from start to finish and i just love how each story escalates to the point where ya like how tae fuck did we get here? It's still worth picking up even if you've never heard of limmy (although do go watch limmy's show you're missing out otherwise) it's just amazing and i loved every story! Go pick it up avoid drinking radiator water and learn a bunch of scottish slang. **Kindle daft wee stories free** 1780893752 a book of daft wee stories by limmy Not a huge fan - just too silly for me 1780893752

is Limmy's first book. It is a collection of stories. There are short stories. There are longer stories. There are stupid stories. There are thoughtful stories. There are upside-down stories. There are normal-way-up stories. There are weird stories. There are less weird stories. There are really weird stories. There is nothing else like it. Have a read. 1780893752 Edited from 4 to 5 stars. Would have made a fantastic pamphlet. In my opinion. 1780893752 Daft 1780893752 I annoyed everyone with this book.
