In an effort to show Nick how far he will go to save their relationship Stan takes his troubled brat on a camping trip where they will both get far more than they bargained for. There was literally no difference except that the dad might be a pretty decent guy for raising a son that wasn't his (not even by adoption) after the boy's mother left him (and HER son) behind:

Simon Strange loves coffee red wine craft beer and men, Stories of the forbidden of the filthy and the naughty and the never ever tell and of course the strange. A Lakeside Secret (Nicks Awakening #1) Tasty little taboo morsel: On to the rest of the series I go! Gay and Lesbian Fiction Romance This was a nicely done little taboo story between a step-dad and his 18 year old step-son: It's adorable how the author worked hard on establishing the relationship as a dad/son fantasy without actually having them be related by blood: Anyway at age 18 Nick starts to appreciate his stepdad in more ways than one and finds himself on a camping trip with his dad that changes their reality forever: Yeah that's literally it it's a novella so don't expect much plot or character development. I really liked this one but I'm not gonna pick up the other books in the series because they seem to dive deep into dom/sub territory which isn't my thing. But rating this for what it is (a taboo erotica short) I can say I was entertained, Plus Nick the first person narrator is hilarious whenever he involves the audience directly breaking the fourth wall: 5 Stars \*\*\* Gay and Lesbian Fiction Romance I liked it ok, Gay and Lesbian Fiction Romance NOTE: I also reviewed the whole series (and gave it 5 stars) here I'm blown away by how absolutely beautifully this book is written. but best of all? It's completely laugh-out-loud funny! Just shows how incredibly talented this author is, to be able to approach such a taboo subject and pull it off so well, It's not just some introspective dark and dirty story; it's truly a wonderful book, Luckily the next in the series is already loaded on my Kindle: Simon Strange really packed a punch into this short story/novella - from the characters to the sex it was over-the-top awesome compared to others I've read. I'm going to be reading everything else of Strange's I can get my hands on now, Gay and Lesbian Fiction Romance OMG that was sooooo hot! Gay and Lesbian Fiction Romance I found this gem of a book when I was looking for a taboo book. It was incredibly hot when it happened and the run up to it was a lot of sexual tension: There are 2 more books in this series that I will definitely be reading sooner

rather than later, Gay and Lesbian Fiction Romance I feel wrong giving this book any kind of rating because it disturbed the hell out of me: but holy hell was it hot! I re-read this like 3 times already. \*fans self\* Gay and Lesbian Fiction Romance Right away I realized this is incorrectly shelved, I found this on a list for Daddy Kink This is NOT Daddy kink, Did this stop me? Hell NO! I was little bit uncomfortable: Well I did give it 4 stars ;) Gay and Lesbian Fiction Romance.

. Especially men. Especially men. Just be sure to bring a change of undies. Because judging from the setting they might as well be. Very cute. 4 stars! Gay and Lesbian Fiction Romance \*\*\* 3. I got a little bored waiting for them to get together. It's insightful and tender and honest. A definite must read for fans of incest. Gay and Lesbian Fiction Romance

So effing hot. If you're okay with a taboo read start here. The taboo is step-father / son incest. Okay there is a Daddy. and it's hot and kinky. but Daddy kink is not with your actual father. I just wasn't prepared for it but I continued on. AND
