

Head Over Heels (Geek Girl, #5) By Holly Smale **Head over heels bass pdf** 0007574622 3 stars! this book was predictable and set up things for the next book that I can already say with certainty I've correctly predicted despite not having started it and Harriet is starting to get really annoying as a character to be quite honest (like India is right; she is bossy and controlling and it's exhausting)I was going to give this 2. **Head over heels lyrics tears for fears** he's sarcastic and he scowls a lot but he means well and so he is basically me but a boy except with a love for art instead of books) and also that was a really well-planned cliffhanger so smale definitely deserves an extra half star for it((I feel bad because I feel like I'm single-handedly lowering the overall ratings for these books because most people who don't really click with the first instalment of a six-book series would just drop the series altogether and move on and I clearly felt from the first book that this series was going to be a bit too juvenile for me but once I start a series I can't drop it like I always accidentally do with my phone and finishing series is just about the only thing I don't do half-assed in my life so sorry holly smale)) 0007574622 I am a HUGE fan of the Geek Girl series so I was ridiculously excited to receive a review copy of the latest installment. **Head over heels iggy** I finally found my people Head Over Heels brings us our favourite characters that we love even Toby and we also get to see the familiar faces of Jasper and India who have been added to Harriet's list of friends. **Head over heels live** We know how super organised Harriet is and with modeling no longer on the cards she has a lot of free time to plan a sleepover with a laminated itinerary of what they will do and when but Harriet is so busy with her plans she fails to see what her friends are going through. **Head over heels book** I've enjoyed seeing the various exotic locales in previous books but there's something about England especially historical sites such as Hampton Court (which I would love to visit someday) that immediately makes me happy. **Head over heels imdb** For someone so smart Harriet is completely clueless when it comes to reading social cues and she doesn't even realise that someone cares for her and really fancies her until it's right in front of her. **Head over heels letra** Speaking of book 6 - it's the last one sad face ;'(- what was with that ending?! There hasn't been a real cliffhanger in any of the books before but just be warned there's one hell of a cliffhanger in Head Over Heels. **Head over heels book newman** I'm sorry but I'm not because it's totally called for! SUGAR COOKIES THIS BOOK WAS AMAZING!You know how most people admit that when reading books they hardly ever laugh out loud? Well I did in this - so many times! I sounded inhuman I was that happy ;)I know people have been worried about the new love-interest but although I love Nick *cries* I'm totally digging Jasper - he just makes me squee with happiness because he's so genuine and let's face it we share the same crude humor. **Dragon tales head over heels book** And most importantly THE PROMISE OF A SIXTH BOOK! - and from the brief hint of what's going to happen when they get there it looks like it's going to be a truly wild ride of emotions. **Head over heels script pdf** So when love is in the air Harriet is determined to Make Things Happen!If only everyone else would stick to the script...
