

The Stars We Walked Upon (Seven Sisters #5) By M.L. Bullock

When You Fight Death You Don't Always Win Mobile Alabama is a Supernatural Hot Spot! Carrie Jo Stuart's dream catching has gotten out of control and threatens to wreck her happy home. The characters in this series seem to come alive (along with the ghost of the past) A very good read! Mystery Paranormal Historical Fiction AwesomeFast pace can't put down seriesleaves you wanting to know more. Great characters there is a book where you can buy all six to read at once Mystery Paranormal Historical Fiction More to the StoryMore of the past is revealed as well as the present. It continues to fascinate and I look forward to the next piece of the story! Mystery Paranormal Historical Fiction A little bit moreThe more I read the more I learn about what happened to the women of Seven Sisters. The ghosts are just an added plus lol! Mystery Paranormal Historical Fiction *How will this end???*Each book seems to end with a cliffhanger of sorts and I cannot see how this will ever end. Sometimes the characters from the past seem to blend seamlessly with the present so although these are quick reads you do need to keep on top of the past and the present Mystery Paranormal Historical Fiction This next installment of this series was very nice. Once must realize that "Southern relations" are far-reaching and extended cousins often show up unexpectedly! The storyline to this part of the family history was very interesting and helped tie up some loose ends. While this is not the best series I have ever read it does keep me wondering who and what will show up next! Mystery Paranormal Historical Fiction The Stars We Walked UponNot my favorite in the series but still good. Mystery Paranormal Historical Fiction Enjoyed this series a quick but engaging story with lots of characters and a suitable ending I did find a few un answered areas but work on the theory that time has happened between each book so things have move forward without them being written Mystery Paranormal Historical Fiction

: She decides to tell her husband a secret that changes everything but Ashland has ghosts of his own: Ashland's childhood friend Detra Ann Dowd battles a frightening supernatural being but travels across time to receive help from an unexpected ally, Henri Devecheaux's past catches up to him and he realizes how much his friends mean to him"especially one in particular. Delilah Iverson's life continues to unfold in CJ's dreams and CJ learns the truth about Delilah's connection to Karah Cottonwood and the scheming Isla Beaumont. Can Delilah escape the danger that awaits her at Seven Sisters? The Stars We Walked Upon (Seven Sisters #5)Great ending for this series!I look forward to following Mrs. The book continues to draw you in and longing to know what is going to be the ending, Mystery Paranormal Historical Fiction love love loved this series, Mystery Paranormal Historical Fiction Such a great surprise!I just love this series. The characters have become friends and I can picture Mobile in my head as the beautiful city by the shore: There are quite a few characters and now I am in it I need to see the climax of this series: Bullock once again introduces yet another perspective as well as new characters: There was also more "happiness" amidst the supernatural which made the reading more enjoyable. I like how with each new book we learn another scandalous truth about the inhabitants of Seven Sisters. Bullock into the next series. So now I'm onto the sixth book. Would hope to learn more about what happened to Calpurnia. couldn't put down until all 6 books were read. My hope is that you keep it going. I also like the teasers for the

next series. Well done
