22 Shocking True Crime Cases of Kids Who Kill including; Tyler Hadley: Tyler's parents were sticklers for discipline. These are the main collections; American Monsters 50 American Serial Killers You've Probably Never Heard Of Murder Most Vile Human Monsters British Monsters Australian Monsters Canadian Monsters German Monsters Cannibal Killers Plus various other standalone books including the The Deadly Dozen which is available as a free download on Amazon and Serial Killers Unsolved (siblings grandparents) but they also perpetrated their vicious remorseless crimes against friends and strangers in chilling & horrific ways. Robert Keller Charles Manson warned us Do you remember when Charles Manson told us that our children would kill us? The children in this volume sometimes killed on the spur of the moment during an argument or abuse. What are we to do when children as young as 10 or 12 commit cold-blooded murder? We punish them more lightly because of their age but is that sufficient? When they become adults don't we already know they are capable of killing without remorse or conscience? These are interesting case studies from the child who systematically poisoned her siblings so she wouldn't have to babysit to the teen gang who kicked and stomped a young couple because they didn't like the way they were dressed. I feel like there needs to be more of a balance between providing more info but not an overwhelming amount as some of these books about true crimes often do! Robert Keller Not much new here The stories for being as short as they are (I normally won't read this type of book; I prefer full length books that tell the whole story rather than just a summary of a bunch of stories but I was desperate) were well written and as detailed as they could be I guess for a summary of the cases. I mean if you get the book free and have been living in the dark for eons and haven't heard of those cases then go for it but true crime junkies will be disappointed I'm afraid. It's like staring at a car wreck Robert Keller Always disturbing to read about kids While I do enjoy this series by Robert Keller an author who writes at a Malthusian pace it is always disturbing to read about children killing their families or other children:

Which you can get for free when signing up to my mailing list. I haven't caught up with reading all his books yet because I only learned about him a short time ago. Then after reading one of his books it leads me to search out and read in detail a book length version of one of the monsters he's introduced me to. Once I've finished that book I'm back to reading more of Keller's - and all of a sudden he releases a NEW book, So why were they allowing him to host such a raucous party? Maybe because they were dead, Joe Fiorella Jacob Delashmutt & Royce Casey: A trio of miscreants lure a young girl to a clandestine rendezvous. James Fairweather: James Fairweather had one ambition in life, Gina Grant: Gina swore to police that her mother had committed suicide. Given the terrible wounds to Dorothy Grant's neck that story was never going to fly. Ryan Herbert & Brendan Harris: A teenaged girl is savagely beaten to death by a gang of juvenile thugs: Piedad Martínez del Águila: The barely believable story of Spain's youngest serial killer 12-year-old Piedad Martínez del Águila, Richard Keith: Three years before the high-profile murder of Jamie Bulger there was this case nearly identical and equally heartrending: Larry Swartz: His adoptive parents subjected him to years of physical and mental abuse, >>> >>> >>> Plus 14 more horrific true murder cases: Book Series by Robert Keller Most of my works cover serial killers while the "Murder Most Vile" series covers individual true crime stories, I didn't expect the release of this book but hope there are more Volumes in the future of this series, From looking at the years in which these events happened things are getting more and more out of control, Other times they made elaborate plans and drew in other children to help them: Very few true crime books don't get at least 4 stars from me. I'd still enjoy a compilation of multiple crimes in one book but this was not detailed enough for me: Also in

some ways I felt like the author was downplaying my intelligence, I felt like he was oversimplifying some of the cases and I felt like too many details were cut out: So there's nothing in here that you probably haven't already seen on the news - and in even more detail: The Goth couple (Sophie Lancaster) attacked in the park just because they're Goth. The two friends who beat up their other friend and cut her hair then drown her in shallow water and left her with a heavy log laying on her back. Not that it is that well written but it's just so dreadful to see so many killer kids, The why behind each murder is sometimes murky sometimes shocking and sometimes almost understandable (in cases of severe abuse Cody Posey comes to mind): Robert Keller Another great true crime book Keller never lets his readers down, This book is truly a factual well written account of grisly crimes carried out by children: Robert Keller Good Good read some dates and names the author gets mixed up with these books which can be quite annoying. I think Rob Keller is trying to bankrupt me. What comes next is pure evil. The nerdy 15-year-old wanted to be a serial killer. Her crime? They didn't like the way she dressed. But a beaten dog often turns and so did Larry Swartz. Scroll up to grab a copy of Killer Kids Vol. 6. Robert Keller Excellent volume in this series. Most of the stories here were quite new to me. Nicely written and researched material. Robert Keller I love true crime. This one was ok but certainly not great. I needed to get a bit more info on each case. I felt like I was hanging too often here. But they're all OLDER cases. And high profile. I mean that was HUGE in the news. That was a big deal too. The other stories are also very familiar. Robert Keller

Kindle Unlimited ebook. I continue to be drawn to this series. Good addition to this series. The cases within these pages are unnerving. still good read Robert Keller.
