They arrive alive. They leave dead.those are the stories I want. If they give them to me I'll make their death.easier. They're already dying that's why they're now my patients. If they play nice I can make their death less painful. The majority of these killers are expert manipulators. It's a chance I'm willing to take. And now.they might just be playing with yours too. WARNING: There is swearing in this book. No big wishes. just something small and feasible. This specific book focuses on family-based crimes. Just a reminder: I'm a nobody really. I'm not a writer.
