. I come from NZ originally so know the heartache that these people suffered, I think this sums up the wonderful people of this era don't make a fuss and get on with it wish we had people of that calibre now, This book covered an area not well featured in other books I've read Namely the Dutch East Indies. He depicts amazing resilience resourcefulness and even moments of humour amid the horror of captivity where he suffered terrible mistreatment and deliberate efforts to humiliate, He managed to learn skills from other POWs such as contract bridge chess shorthand and even English law[1]

All these stories are very very sad. They are all true stories. Best way is to write everything down. I

laugh and I cry when reading these. 5 stars is very well deserved. My grandmother felt he was alive and he did return home. oo kv mh g oFhj nnnv njjkkj has arrived at the rear. I don't think this book is a good buy
