Which leads to a compelling and addictive page turner. Willow leaves her husband after finding him cheating. You were guessing everything (which was right). Even why Willow's jet black hair kept getting mentioned. Can't say this was a contemporary romance. One dominant man and his doormat. I will certainly be looking for part 2 of this story. Leo Solovev. An amazing story that ended on a real cliffhanger. A fantastic story. The characters are the right amount mean and loveable. It just gets better and better. Going to dive into book 2 now. Can't wait
