

SpiceBox: 100 Fresh, Vegan Curry House Favourites By Grace Regan 256 pages I've been vegan for 8 years and bought so many vegan books but this is my favourite / the recipes are so easy to follow and every recipe I've tried has been so delicious and gone down so well with my housemates who aren't veggie. **Spice box lexington** Learning so much about spices from the book and it's really inspiring me to cook ! Would recommend visiting the Spicebox curry house too to anyone in London it's always 10/10 and has such a wonderful vibe! 256 pages I have been a keen cook for nearly 40 years and this is the best Indian cookbook I have come across. **Spicebox kitchen cookbook** I put it on a par with Ottolenghi.
